

Andritz 3-Wheel Gantry Truck Replacement

P&H

P&H recommends replacing the existing 3 wheel/corner trucks with P&H 4 wheel swivel design trucks.

Bulletin no. 13409D
New: April 26, 2004
Rev 3 1-13/05

P&H Plan:

The leg ends are pin connected to swivel equalizers with storm brake space provided between the 2 wheel bogies.

P&H 2 wheel bogies with coupled on drives connect to the equalizer through swivel pinned connectors.

No side guide rollers are used or recommended.

Replace this part

Swivel Unit

MeadWestvaco Modernization with raised equalizer

BENEFITS

- Longer wheel & rail life
- Reduced wheel loading
- Reduces stresses throughout
- Solves tracking problems rather than masking them like the side guide rollers do!
- Space for storm brakes
- Quick changeover.

P&H Advantages

- No money wasted keeping the old design going longer
- Follow with reconfiguration of controls for improved skew control to minimize structural damage from skewing
